

The Bioenergy Research Forum

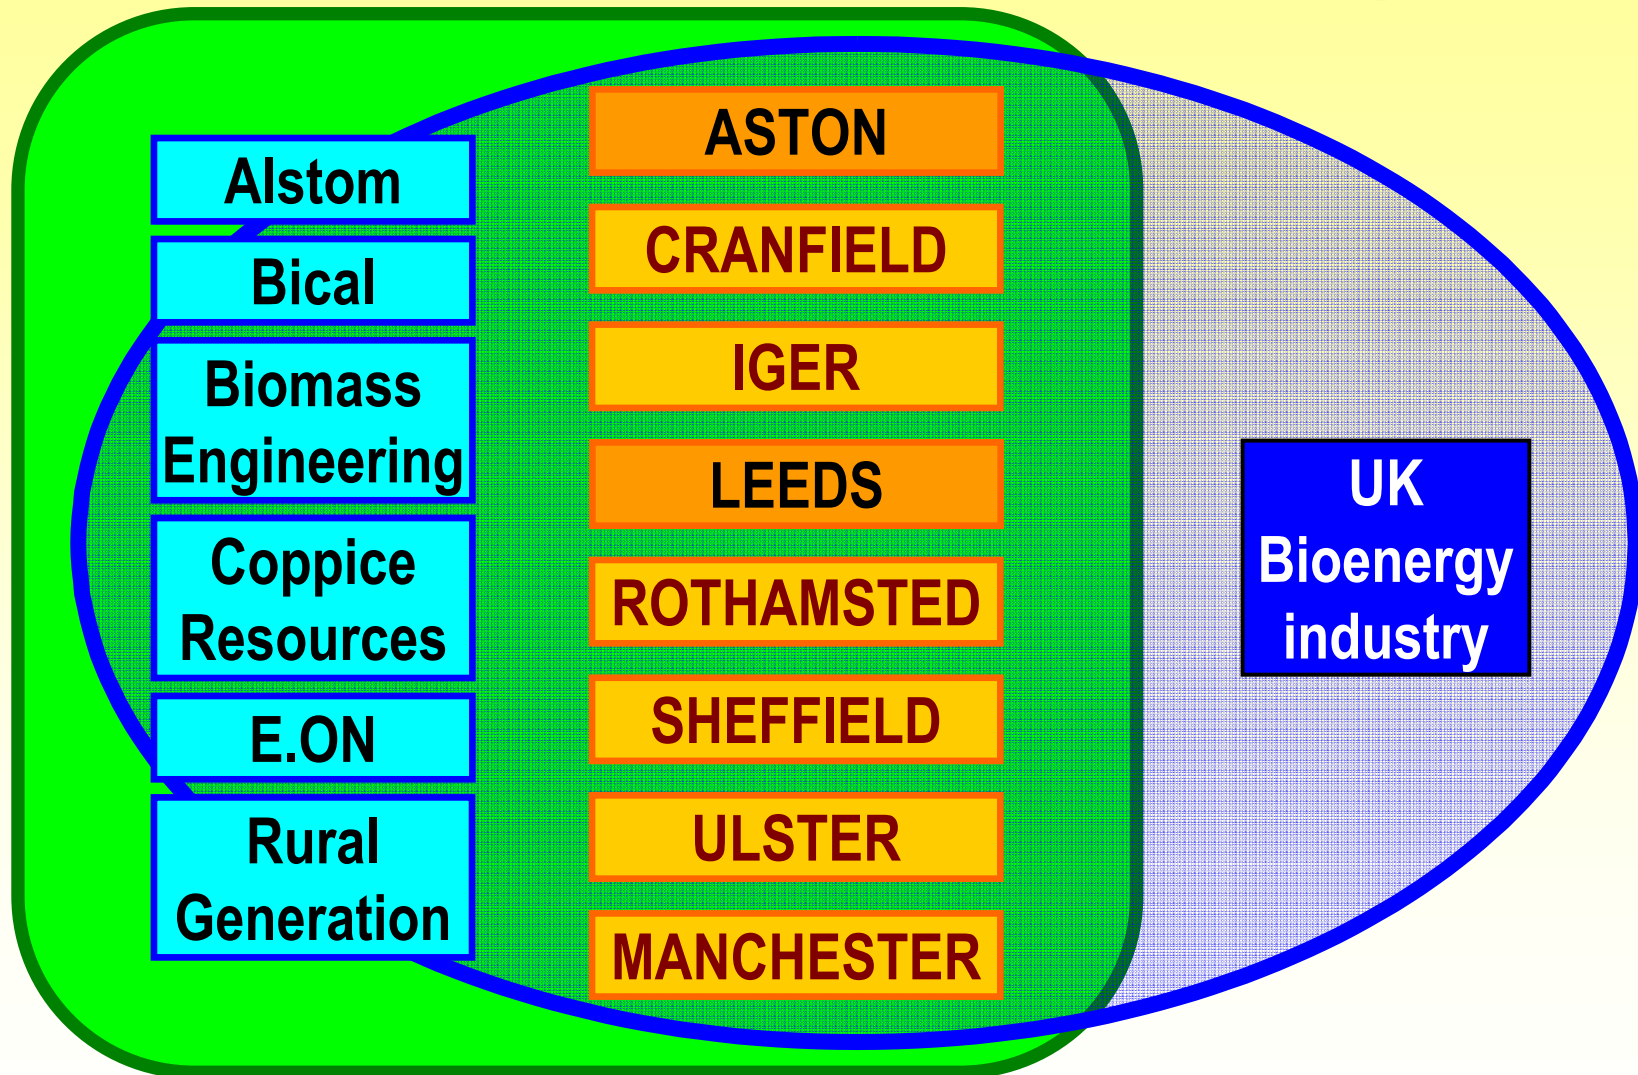

is organised by and sponsored by

SUPERGEN Bioenergy

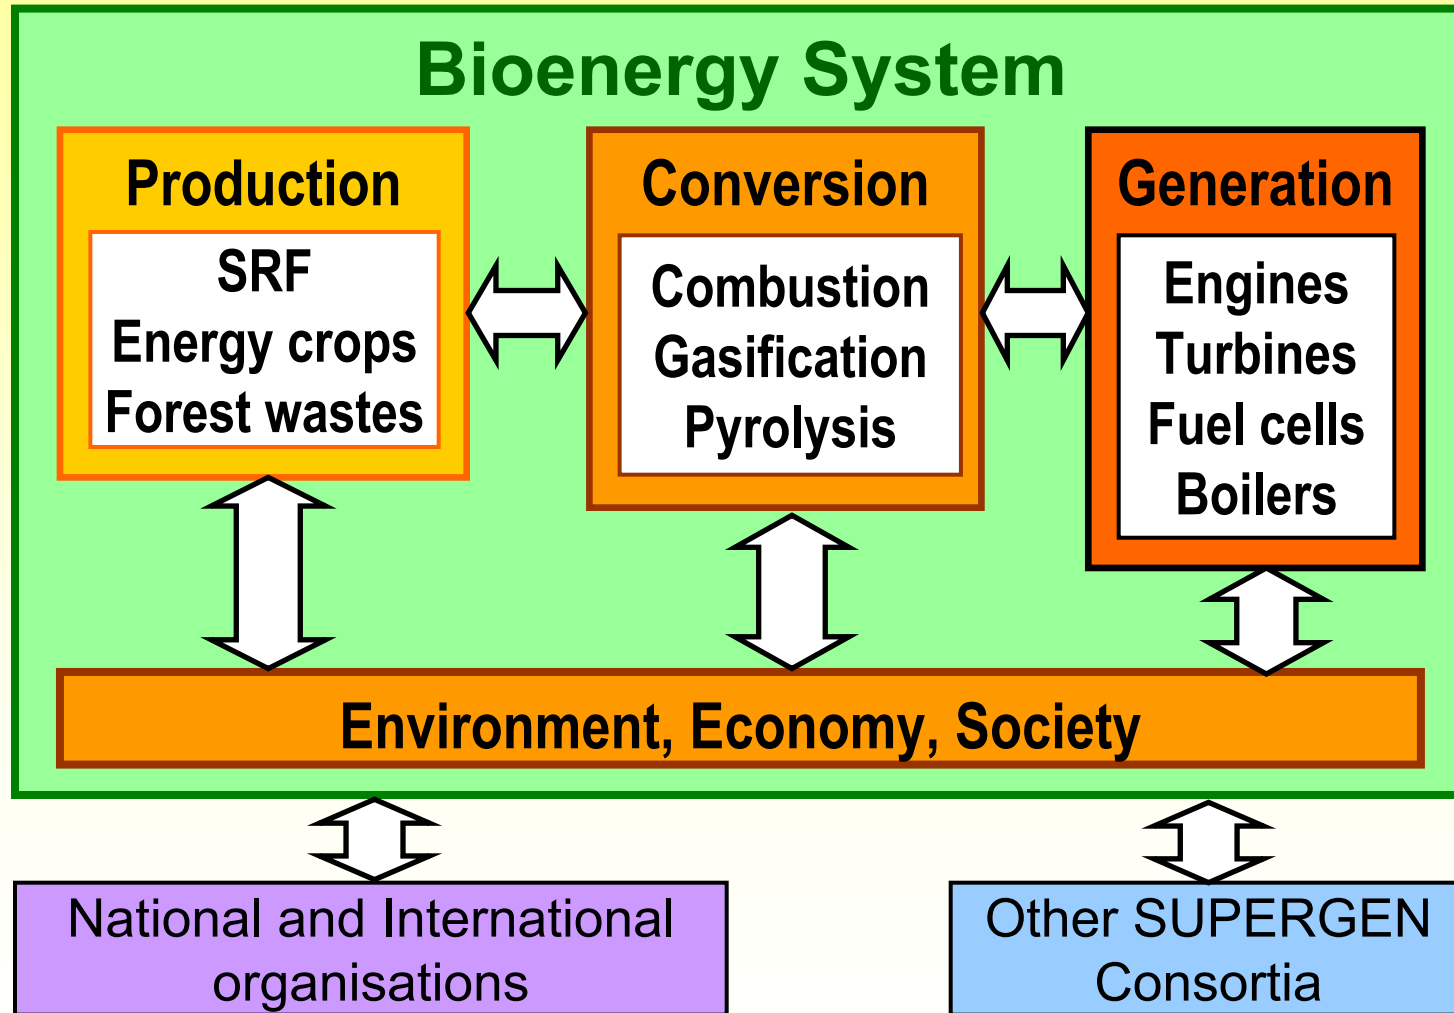

A consortium of 8 research organisations
and 6 companies supported by EPSRC

Consortium membership

Current SUPERGEN

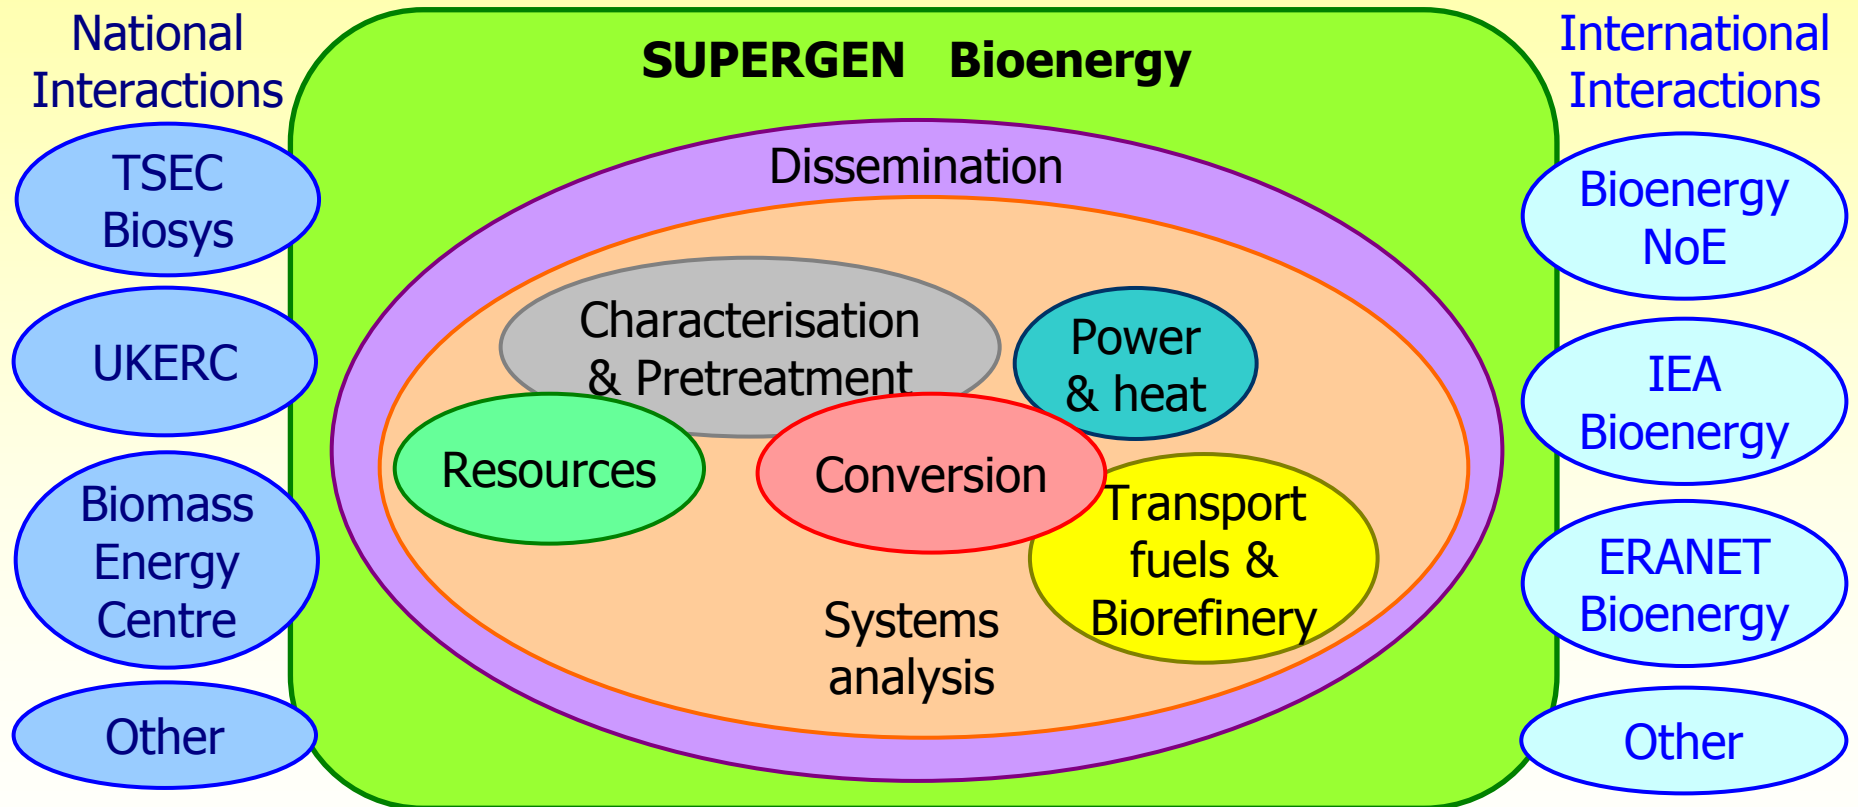

Emphasises Interfaces.

June 2003
to May 2007

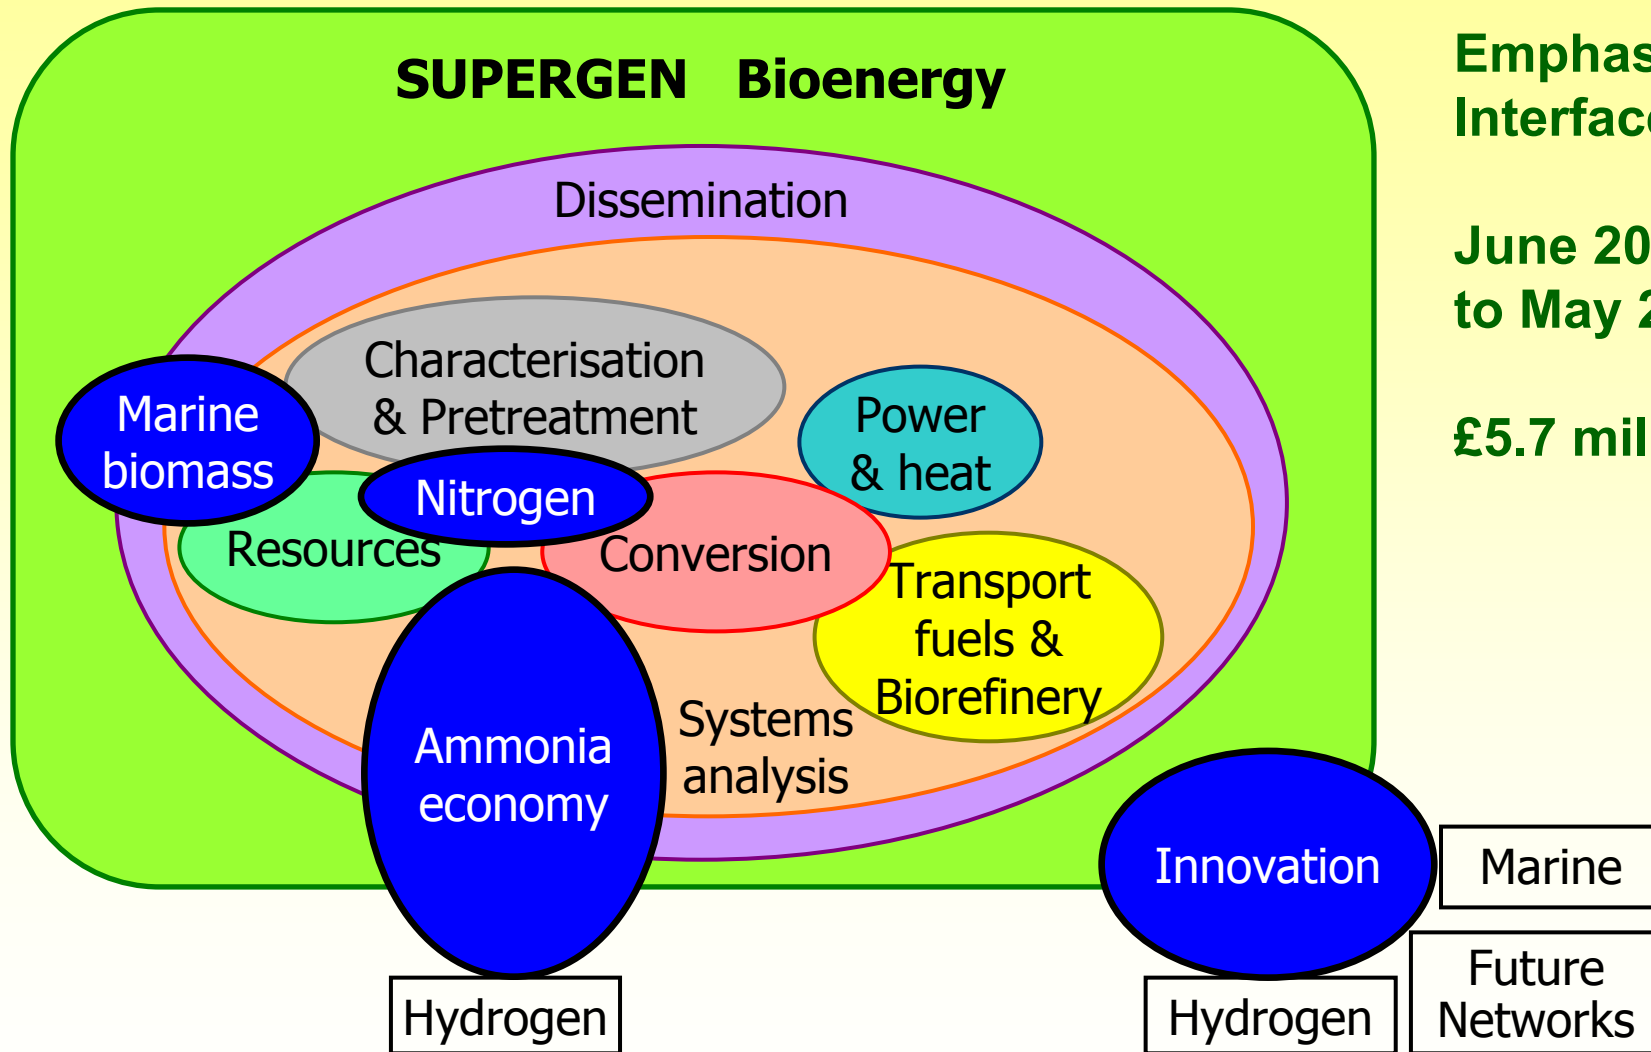

£2.9 million

SG Bioenergy Continuation

Maintains study of interfaces but broadens interest to biofuels and biorefineries to exploit the renewable carbon in biomass

SG Bioenergy PLUS projects

Emphasises Interfaces.

June 2007 to May 2011

£5.7 million

Partners

Academic Partners

- Aston University
- University of Leeds
- Cranfield University
- Forest Research
- Institute for Grassland and Environmental Studies
- University of Manchester
- Imperial College
- Policy Studies Institute
- Rothamsted Research
- University of Sheffield

Planned industrial partners

- Alstom plc
- Amec plc
- Bical Ltd
- Biffa plc
- Biomass Engineering Ltd
- BP plc
- Coppice Resources Ltd
- E.ON UK plc
- Johnson Matthey plc
- Rural Generation Ltd
- RWE plc
- Syngenta plc

Bioenergy Research Forum

- Provides an opportunity for the biomass and bioenergy industry to meet and exchange information,
- Provides an interface with industry, stakeholders, and other RDD&D activities
- Meets about every 8-9 months.
- We publish British Bioenergy News free of charge about every 8 months to members
- We issue a bimonthly news bulletin free of charge to members
- We have a website: www.supergen-bioenergy.net
- We would like feedback on topics, activities, visits.
- Please contact Rob Fenton for details:
r.b.fenton@aston.ac.uk

Associate membership

- We welcome Associate Members of the Consortium for SUPERGEN Bioenergy Phase II from June 2007,
- Associate members sign a confidentiality agreement to have access to some of the technical meetings.
- Associate members also have better access to the work of the research partners and opportunities to develop research activities,
- There are currently no plans to charge for membership.
- Please contact Emma Wylde at Aston for details.
e.wylde@aston.ac.uk
